Instructions

For <u>presenting authors</u>, we remind you we have allocated 20 minutes to each paper. A maximum of 10 minutes should be spent on the presentation and the remaining 10 minutes for questions and discussion. Each room is equipped with a computer and internet connection, we suggest using the "Eduroam" or "Firenze WiFi" networks. A person from our team will be in the room for any need.

For <u>track chairs</u>, your role will be to moderate questions and act as a timekeeper. We can send the papers of the session on request.

For <u>all participants</u>, we remind you that, due to the requests of many authors and in line with the latest editions of the conference, papers will not be published online. If you are interested in one or more papers, you can contact the other authors directly via email, even before the conference.
